Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering 5 messages hidden by filtering

1.

Error

No space between attributes.

At line 8, column 84

ion="{{ route("password.email")

2.

Error

Quote " in attribute name. Probable cause: Matching quote missing somewhere earlier.

At line 8, column 98

"password.email") }}"></div>

3.

Error

Quote " in attribute name. Probable cause: Matching quote missing somewhere earlier.

At line 8, column 103

word.email") }}"></div>

4.

Warning

Attribute password.email" is not serializable as XML 1.0.

From line 8, column 17, to line 8, column 104

<form class="form-forgot-password" method="POST" action="{{ route("password.email") }}"></div>

5.

Warning

Attribute }}" is not serializable as XML 1.0.

From line 8, column 17, to line 8, column 104

<form class="form-forgot-password" method="POST" action="{{ route("password.email") }}"></div>

6.

Error

Bad value {{ route(for attribute action on element form : Illegal character in path segment: { is not allowed.

From line 8, column 17, to line 8, column 104

<form class="form-forgot-password" method="POST" action="{{ route("password.email") }}"></div>

7.

Error

Attribute password.email") not allowed on element form at this point.

From line 8, column 17, to line 8, column 104

<form class="form-forgot-password" method="POST" action="{{ route("password.email") }}"></div>

Attributes for element form:

Global attributes

accept-charset — Character encodings to use for form submission

action — URL to use for form submission

autocomplete — Default setting for autofill feature for controls in the form

enctype — Entry list encoding type to use for form submission

method — Variant to use for form submission

name — Name of form to use in the document.forms API

novalidate — Bypass form control validation for form submission

target — Browsing context for form submission

rel

8.

Error

Attribute }}" not allowed on element form at this point.

From line 8, column 17, to line 8, column 104

<form class="form-forgot-password" method="POST" action="{{ route("password.email") }}"></div>

Attributes for element form:

Global attributes
