# Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area

Checker Input

Show ☑ source ☐ outline ☑ image report [Options…]

Check by [text input ▾] ☐ css

```
@extends('layouts.app')

@section('content')

    <div class="row">

        <form action="/action_page.php">
            <label for="cardnumber">Credit Card Number:</label>
            <input type="text" id="cardnumber" name="cardnumber"><br><br>
            <label for="expirydate">Card Expiry Date:</label>
            <input type="text" id="expirydate" name="expirydate"><br><br>
            <label for="code">Security Code:</label>
            <input type="text" id="code" name="code"><br><br>
```

[Check]

Use the Message Filtering button below to display options for hiding/showing particular messages, and to see total counts of errors and warnings.

[Message Filtering] *3 messages hidden by filtering*

Document checking completed. No errors or warnings to show.

Image report

No images in the document.
